SUBJECT : Army Request for Downgrading Sanitized Material

REFERENCE : Army Memo 5(T) 44-58/A, dated 26 August 1958

Your proposal has been discussed by the UAB Working Group which felt that the Army should be authorized to classify sanitized c.b. materials as Secret/NoFor. It is understood that this judgment of the UAB Working Group is acceptable to the Army for the present, but that if major difficulties are encountered in operating under the classification, the Army will reopen the matter with the Utilization Advisory Board.
